

ArtLine

INSTRUCTIONS

STEP-BY-STEP

- 1 Apply the adhesive using the applicator

The applicator can be used to create both fine lines and larger areas. The fine tip is ideal for precise details, while the larger tip is best suited for bold lines and areas. Drying time: Depending on the thickness of the application, the drying time is approximately 10–20 minutes for fine lines and 45–60 minutes for thicker lines or areas.

- 2 Apply gold leaf

Cut the transfer gold leaf into the desired strips and press them down.

- 3 Polishing gold leaf

Polish the gold leaf with Kölnier tissue. Done!

Scan here to learn more about how to use the adhesive.

MORE EXAMPLES

TIPS & ADVICE

- For even drying results, apply Kölner Signcoll as evenly as possible.
- Rinse the needle tips with water immediately after use. If adhesive residue has already dried, the tips can be cleaned with alcohol (e.g., ethanol)
- Shake out the polishing cloth regularly, as gold can scratch gold.
- Thoroughly degrease the scissors; gold leaf adheres even to the smallest traces of grease.
